A Note from our Pastor

One look at the calendar for the next month would show anyone that we are an active church. But there is always the temptation to become too busy. However, there is a difference between being active and being busy. When we are active, we are in the midst of being church to people around us through ministry and benevolence. When we are busy, we are concerned with our own wants and wishes for the church. So as we look toward the coming days, weeks, and months ahead, it's good for us to be active as long as we are reaching outside our church walls to be church in the community.
